REGISTER FOR

ACTIVITIES BY SEPT. 22nd!

Click to see the weekend’s schedule & register.
We look forward to seeing you at...

2. The Alumni Association Annual Business Meeting - Saturday, Oct. 4th at 10:30 a.m. in the Kahn Room of Hulman Union

4. The Early Bird Alumni Reception - Thursday, Oct. 2nd at 6:00 p.m. in the Faculty/Staff Dining room of Hulman Union. Click here to register.

3. The Ventures Open House. Join us for an Open House at Rose-Hulman Ventures Saturday, October 4, 4-6pm. Come see our renovated facility, learn about our current projects, visit with the project managers and reconnect with past and present Ventures Alumni! Click here to register.

Before the hustle and bustle of Homecoming 2014 begins, we mustn’t forget to commemorate the legacy of Chauncey Rose.

In September of 1874 our great Institute was founded. Since 2012, Chauncey Day has been held on the second Thursday in September to promote the gathering of Rose-Hulman alumni and students for the purpose of remembering the man who paved the way to greater education for thousands of people around the world.

Get together with your fellow alumni on Sept. 11th for this special day!

Child Care is available to you the night of Sat. Oct. 4th through the Vigo County YMCA!

Registration for this service will close Sept. 22nd.

To register your child/children (ages 6 weeks to 14 years) please call Vigo County YMCA Executive Director, Eleanor Ramseier, at 812-232-8446 or email her at exec@vigocountyymca.org.

Click here for rates and details.
ROSEbotics is a new Rose-Hulman Alumni Group. The mission of ROSEbotics is to provide Rose-Hulman alumni an opportunity to stay connected with Rose-Hulman and learn exciting new skills in the fields of Software Engineering, Robotics, and Entrepreneurial Education. In order to achieve this mission, ROSEbotics will (eventually) include the following three components:

1. A series of freely available online courses.
   These courses will pull content from 6 existing Rose-Hulman courses to provide a wide range of content for alumni, family, and friends at different levels of experience. The courses, available at www.rosebotics.org, will focus on getting started with software development, writing iOS and Android apps, web and backend creation, robotics, entrepreneurship, and smart product design.

2. A smartphone-based robotics platform (coming soon).
   The platform will be a tank base with a smartphone brain, talking over Bluetooth LE, to an Arduino microcontroller available for purchase at a very friendly price to get hands-on Learning.

   Beginning in 2015 alumni can use their robotics platform to participate in the Homecoming Robotics Competition (details still TBD). This is designed to be a family-friendly, face-to-face ROSEbotics mixer and networking opportunity for members of our group. Prizes will be given for participation and levels of success.

ROSEbotics will have a tent in Tent City during Homecoming this year! Please stop by to see robots compete and learn more about the ROSEbotics initiative.

You can sign up for information today at www.rosebotics.org.

The faculty leading this new program include professors:

David Fisher
Mechanical Engineering

David Mutchler
Computer Science, Software Engineering

Matt Boutell
Computer Science, Software Engineering

Grant Hoffman
Engineering Management
